Armstrong State University, "November 21, 2011 AASU Faculty Senate Minutes" (2011). *Armstrong Faculty Senate Minutes*. 41.  
<https://digitalcommons.georgiasouthern.edu/armstrong-fs-minutes/41>

This minutes is brought to you for free and open access by the Armstrong Faculty Senate at Digital Commons@Georgia Southern. It has been accepted for inclusion in Armstrong Faculty Senate Minutes by an authorized administrator of Digital Commons@Georgia Southern. For more information, please contact [digitalcommons@georgiasouthern.edu](mailto:digitalcommons@georgiasouthern.edu).

**Armstrong Atlantic State University**  
**Faculty Senate Meeting**  
**Minutes of November 21, 2011**  
**Science Center 1407, 3:00 pm**

- I.** Call to Order: Senate President LeFavi called the meeting to order at 3:04 pm (see Appendix A for attendance roster).

**II.** Senate Action

- A. Approval of Minutes from October 17, 2011, Faculty Senate Meeting (minutes available at: [http://www.armstrong.edu/Departments/faculty\\_senate/senate\\_minutes](http://www.armstrong.edu/Departments/faculty_senate/senate_minutes)). A motion was approved to accept the October minutes as recorded.
- B. University Curriculum Committee Items (See UCC Minutes from November 9, 2011: [http://www.armstrong.edu/Departments/faculty\\_senate/senate\\_minutes](http://www.armstrong.edu/Departments/faculty_senate/senate_minutes)). All UCC items were approved without amendment.
- C. Graduate Affairs Committee Items. No GAC items were brought forward.
- D. Recycling Resolution (Appendix B). Dr. Adams introduced the resolution, noting that members of the university do not share a consistent understanding of current campus recycling policies and that the resolution intends to demonstrate to President Bleicken that there is support for institutional recycling at the grass-roots level. A motion was approved to accept the resolution without amendment.

**III.** Senate Information

- A. Update on summer profitability and budget. Dr. LeFavi explained the process developing from the previous Senate meeting in which an ad hoc committee of senators was formed to investigate summer profitability. He then introduced the committee's report (Appendix C) and opened the floor for comment. The initial discussion revolved around clarifying the extent to which the administration provided budgetary data. It was then noted that information was shared at the October 27 campus leadership meeting, which senators were invited to attend (see Senate minutes from October 17, 2011). A comment was also made in response to the committee's report that several members of the administration were away at Pirate's Preview; thus, they did not purposefully avoid the previous Senate meeting. Dr. Thompson presented a detailed overview of the process for determining summer profit sharing by

reading from a document attached to an email sent that morning to Dr. LeFavi, entitled Summer Revenue Sharing Explanation (Appendix D).

She then pointed out that the Council of Deans met during the previous week and determined the plan for distributing summer profits to the various colleges. When asked about detailed numbers, Dr. Thompson referenced data found in the Excel spreadsheet sent to Dr. LeFavi (Appendix D). The specific numbers are \$19,753 for the College of Education, \$51,299 for the College of Health Professions, \$57,542 for the College of Liberal Arts, and \$55,734 for the College of Science and Technology. In responding to comments related to the ad hoc committee's report, which indicated that the administration apparently blocked figure sharing, Dr. Thompson clarified that the process was not blocked and that she informed the deans that they were free to share information. At a later point in the meeting, following additional comments from the Senate that the administration had been impeding the flow of information, which President Bleicken indicated was untrue and that the administration had not been obstructing the process, Dr. Gregerson noted that he was not told to restrict information, but that some deans may not have wanted to provide incorrect data because they were still in the process of analyzing the numbers when contacted by the committee.

Dr. LeFavi spent some time seeking clarification regarding comparisons of summer revenues and the factors utilized to determine summer profitability. Dr. Thompson commented that even with increased credit hours generated this past summer, student default rates were high, thereby resulting in lower revenue figures. Dr. LeFavi subsequently expressed his opinion that it appeared that the amount of money intended to be shared with the faculty was limited, to which President Bleicken responded that despite the student financial crisis, the administration was committed to its pledge to share revenue from Summer 2012 with the faculty. Subsequently, interactions at the meeting with Mr. Carson related to student defaults and the way the university handles collecting unpaid debt, which he indicated was never forgiven by the university. He also explained the nature of indirect costs and clarified that the university does not operate on a nine month budget. Summer does not stand alone; rather, its revenue is included in the twelve month budget.

Concerning future summers, senators inquired about profit sharing models, course offerings, and faculty course load restrictions; and one senator from the College of Education suggested that the college needs to address its summer practices due to limited profitability. Mr. Carson explained that the administration will be meeting soon to consider the fiscal model for Summer 2013. Dr. Thompson mentioned that such discussions are important in helping create a situation that is beneficial to faculty and students. As for course load restrictions, she said that there are state mandated restrictions on summer compensation. A faculty member clarified that USG policy restricts faculty

compensation by prohibiting a person from making more than one-third of their nine month salary during the summer months, and redirected the matter to the deans for comment. Dr. Barrett explained that departments have often chosen to impose their own restrictions on faculty summer loads, but that there is not, to her knowledge, a general policy in place. Dr. Conroy first explained that the university did in fact make a profit this past summer, but lost money in that the budget was not met. She then suggested that balance must be achieved at the departmental level in terms of course offerings, by which she meant that less profitable, but necessary, courses must be counterbalanced with more profitable classes. The Senate was especially concerned about summer profitability and the importance of fulfilling the mission of the university, particularly when student progress is impeded by limiting the amount of upper division courses in the summer. Due to lower enrollments, the latter are less profitable than lower level surveys. Senators expressed their opinion that the university has placed too great a burden on summer courses to meet high fixed costs related to operational matters. Dr. Gregerson added to the discussion that the university needs to prepare a model for the future that addresses the concerns raised, and he agreed that faculty should be involved in the decision making process.

The matter of summer profitability concluded without Senate action, but prior to turning to announcements at the end of the meeting, Dr. LeFavi returned to the issue, indicating that there was a great deal of miscommunication, as well as missed opportunities for communication. He noted that he will be charging the Planning, Budget and Facilities Committee with preparing for Senate consideration a proposed agreement between the faculty and administration regarding summer profits. Following comments from the floor, Dr. LeFavi expressed that he would have the committee consider fall and spring profitability as well.

- B. Update on Educational Technology Committee and Online Learning. Dr. Johnson briefly announced the university's i>Clicker Initiative and invited Senators to speak with members of the ETC should they have any questions (for more information, see: <http://aasuetc.wordpress.com/>).

He also explained that the ETC has been concerned about the potential overlapping of responsibilities between the committee and the newly-created Distance Learning Taskforce on campus. Dr. Johnson informed the Senate that more information sharing between the two groups will take place, and that members of the taskforce will be present at the next ETC meeting. He then invited any present members of the taskforce to explain the mission of the group to the Senate. As a representative of the taskforce, Dr. Kraft explained that the initiative is a short-term project, which began in August 2011 under the direction of Dr. Heaston. It was tasked with analyzing the administrative infrastructure of offering online learning on campus, and has already addressed several matters, such as registrar coding for the various

types of online courses in existence (e.g., hybrid classes). Dr. Johnson indicated that the committee's concerns could have been pre-empted had better communication occurred.

Dr. Johnson asked Mr. Davis to provide an update on the CIO search, to which Mr. Davis responded that candidates should arrive in January and that the search should be completed by the end of the spring semester.

- C. Update on Graduation Assistant Allocations Bill (FSB 051.11/12). Dr. LeFavi requested that Dr. Thompson present any information she has on the status of the bill. She responded by stating that while she possesses relevant information, she would like to coordinate with the Senate on meeting the concerns brought forward in the bill. Dr. LeFavi invited her to contact Dr. Crosby, who will then direct her to members of the taskforce responsible for the bill.
- D. Update on Provost search. Dr. Barrett informed the Senate that members of the search committee have read the online feedback from the candidate visits and have discussed their views on the merits of the candidates with President Bleicken. The president responded to a question from the floor, indicating that the university anticipates hiring a provost by the end of the term. Dr. Barrett similarly fielded a question, noting that no candidate has withdrawn from the search.
- E. Update on Campus Tobacco Policy. Dr. Plaspohl presented an overview of the survey process that culminated in her taskforce's enumeration of three recommendations, which have been passed along to President Bleicken and which are awaiting her response (Appendix D).
- F. Update on revised Faculty Handbook. Dr. Kraft officially presented the Faculty Handbook to the Senate for its response, asking Dr. Tatlock to disseminate the file to senators for official comment by the January Senate meeting.
- G. Report on Student Government Association resolution on university grading policy. Dr. LeFavi invited SGA President Ty Slater to introduce the SGA resolution, but noted that there is not a formal mechanism for the SGA to raise its concerns before the Senate (Appendix E). Mr. Slater explained that the SGA respects the process by which the university arrived at the new grading policy, but emphasized that the SGA was concerned that students were not adequately consulted during the process. He also stated that the SGA hopes that the policy will be amended before its implementation by giving students, at the discretion of individual faculty members, an additional opportunity (two in total) to withdraw from a course with a "W" grade. Lengthy discussions ensued, at which time faculty commented that the university grading policy is not a matter of shared governance between students and faculty, that the

Senate had the students' best interests in mind when proposing the new policy, that there was a need for changes to the old policy because too many spaces are taken up in classes by students repeating courses after several attempts, and that students are welcome to attend future Senate meetings. Mr. Slater was informed that the SGA could have a senator propose a prewritten bill, which will be presented to the Senate for a vote; and a member of the Senate applauded the efforts of the SGA, while noting that the Senate should give the matter a fuller hearing. Dr. Thompson, however, clarified that it is too late to change the implementation of the new grading policy. Nevertheless, she recognized the SGA's desire for greater student input, recommending that the university consider placing more student representatives on Senate committees. A senator also recommended that the university should consider the ways in which student athletes are advised to enroll in and drop classes. After further clarifications from the floor related to the nature of the new policy, the discussion concluded with Dr. LeFavi expressing his appreciation to Mr. Slater for his eloquent presentation of student concerns. No Senate action on the issue occurred.

- H. Update on Graduation List (Appendix F). Dr. LeFavi informed the Senate that the graduation list has been finalized and sent to the registrar. He recommended that further corrections be sent directly to that office.

#### **IV. Announcements**

- A. Professor Carpenter announced that the next meeting of the Senate will take place on January 23, 2012, in UH 157.
  - B. There were no further announcements.
- V. The meeting was adjourned at 4:58 pm.

## Appendix B – Campus Recycling Resolution

### **Faculty Senate Resolution – Campus Recycling**

Whereas recycling is a widely accepted practice within the city of Savannah; and  
Whereas recycling is currently available but inconsistently practiced at Armstrong;  
and

Whereas there is faculty interest in recycling on campus;

Be it resolved that information regarding the availability of recycling on campus be distributed to all departments;

Be it further resolved that recycling be encouraged and processes developed to support a systematic recycling program

## Appendix C – Ad Hoc Committee Report on Summer Profitability

### Report from Ad Hoc Committee on Summer Profit

The Faculty Senate ad hoc committee formed to determine AASU's profit or loss for the summer session attempted to gather the relevant information from the Deans but were subsequently told by most of them that the data would not be forthcoming. At that point, we then contacted department heads to find the individual numbers for profit or loss by department. Some department heads were unwilling and/or unable to provide this data, but 15 of the 20 departments did report profit information for 2011. We note that no department for which we received or computed data reported a loss.

We received and/or computed profit numbers of \$416,819 for the College of Liberal Arts and \$640,000 for the College of Health Professions. The somewhat informal number for the College of Science and Technology was \$500,000. Finally, as no numbers were received from the College of Education, the committee utilized data on education courses from SHIP to determine the number of credit hours taught during Summer 2011. Making the most conservative estimate possible, we used \$120/credit hour (guaranteed tuition plan – year 2) for undergraduate courses and \$180/hour for graduate courses. Our calculations yielded revenue of \$382,500. Salary information for the College of Education was determined by multiplying faculty salary data available at the library (from before the recent effort to rectify salary inversions across the university) by 3% per credit hour taught. As there was no salary information available for several instructors, the committee used data found at [open.georgia.gov](http://open.georgia.gov) for the missing instructors. These numbers are imprecise, as the latest data available at that site are for 2010, and the amounts found there may or may not correlate well with whatever salaries those instructors received for the summer term of 2011. Nevertheless, the committee feels that this estimate is certainly not unreasonable. We calculated salary expenses of \$181,764 for faculty for whom information was available at the library. Multiplying that by 1.36 yields \$247,200.

Working again to find numbers for the College of Education, we estimated total salary for other instructors was \$27,500, or \$37,400 when 36% overhead is included. According to these numbers, the College of Education made a profit of **at least** \$97,900. While these numbers do not include income reduction due to TAP, the 62+ program, or financially delinquent students, they also do not include extra tuition paid by out of state students or indeed any students not in year two of the guaranteed tuition plan. Additionally, it is assumed that faculty were paid for all credit hours found on SHIP, when in fact they are not paid for certain courses such as independent study, directed reading, research, etc.

The total conservative profit estimate for all four colleges is then \$1.65 million. This assumes that the 36% figure given to calculate costs does indeed cover all costs above that of faculty salaries. The committee also notes that this number does not include the hundreds of dollars in fees paid by each student to the university itself (more about this forthcoming). By any reasonable measure, we can conclude that there was significant profit made in the summer 2011 session. As to the question of

profit in excess of the profit from summer 2010, the committee rejects the notion that profit and loss have any meaning other than that which has been understood by businesses, governments, and the general public throughout history: when expenses exceed revenue, there is a loss; if revenue exceeds expenses, there is a profit. For that reason, and the fact that assembling the information for the most recent summer session (absent cooperation from all departments) was an arduous task itself, we present no data from summer 2010.

When discussing summer revenue, also relevant to the discussion is the amount of money that is brought into the university by way of the fees students pay. It should be noted that these fees are a huge detriment to students wishing to enroll in a single course during summer, as the amount paid is the same regardless of the credit hours enrolled. Based on the total enrollment number (3645 students) provided by the Office of Institutional Research on May 25, 2011, the following amounts of revenue were estimated for various entities within the university:

Student Affairs*	\$747,225
Athletics	\$499,365
Mandatory Fee	\$273,375
Technology Fee	\$175,315

\*This includes Student Center Fee, Student Access ID Fee, Health Fee, Activity Fee, Recreation Fee

Even if the true enrollment fluctuated slightly, it is safe to conclude that approximately \$1.7 million was brought into the university during the summer and that this amount should also be part of the discussion of squeezing academic units to ensure each class/department raises funds equal to 1.36 multiplied by total faculty salary. Again, these fees are a huge factor when students are deciding whether to enroll in summer courses; last summer, the fees a student paid (except \$75 mandatory fee) were equal to 91% (\$389/\$429) of the general undergraduate rate. There are many implications relative to summer profit that should be discussed about this fee to tuition ratio, such as the natural question of whether AASU's primary priority truly is academics when the balance of non-academic costs to tuition are nearly equal, but these are beyond the scope of this task force.

Regardless, the burden of this ratio is currently being shouldered by the academic departments and faculty, and consequently has impact on student progression and retention as the scheduling of summer courses needs to contend with this reality as well. Finally, based upon \$1.7 million being made last summer by non-tuition revenue, the question is raised about where all of this extra revenue is going at a time when less and less is available to support the primary (academic) mission of the university.

We would go further and point out that, while the ideas of transparency and accountability have received a great deal of attention on AASU's campus of late, they are perhaps most conspicuous by their absence. After requests at the first two senate meetings for information about this profit sharing (an idea first proposed by the administration itself), the faculty senate was told that "by or before the next senate meeting", these numbers would be provided. In fact, the upper

administration was not present for the third senate meeting and has made no effort to provide these numbers through any other official channel. While precise determination of these numbers to the penny may in fact take some effort, it is hard to believe that an enterprise that is unable to calculate its profit or loss for one quarter by some point during the next has a particularly bright future.

When this committee, at the direction of the faculty senate, first attempted to collect this information from the deans, we were told by some that communication with them about this matter had been blocked from above. While the owner of a sole proprietorship may well be able to rebuff requests for financial information, we should all be mindful of the fact that AASU is a public institution; the numbers sought by the senate are not confidential, nor would they be shielded from a Freedom of Information Act request if brought by *any* citizen. Rarely does a climate of secrecy engender trust, and it has no place at institutions either public or educational.

The committee notes that the mandate to make a profit in summer has limited or in some cases eliminated the upper division courses offered in the summer due to expected low enrollments; the need to make a profit has consequences for student progression towards a degree as well as (ultimately) retention rates. We believe that summer presents an opportunity for the students, faculty, and university to all benefit. For this to happen, department chairs need to know basic information such as the minimum profit needed to see funds remitted to their department as well as some formula for the size of that payment as a function of departmental profit. If provided with that schedule, the chairs (in consultation with their faculty) can make an informed decision as to the balance between upper division and core courses for the summer. The goalposts need to be clearly marked and immobile.

When considering the value of summer teaching, all of us at AASU must ask the fundamental question: if there were no summer courses, would the university remain solvent in the academic year? What would the loss be if all departments were discouraged from participating in summer instruction? If, as has been suggested, all department chairs were to cap course enrollments at a level that would provide for 1.36 times the faculty salary, would the university continue to function?

Respectfully submitted this sixteenth day of November 2011,

## Appendix D – Summer Revenue Sharing Explanation and Final Summer Revenue Distribution

### Summer Revenue Sharing Explanation

1. Budget projections for the fiscal year, which starts annually on July 1, are due to the BOR by April. For that reason, budget projections are made with expectations of enrollments, revenues, and expenses based on our budget history and best estimates of what those factors will be.
2. Revenues and expenses from summer semester are part of the upcoming fiscal year. The summer revenue numbers for academic summer 2010 are FY 2011; academic summer 2011 is FY12
3. The financial formulas used for building the summer semester in FY11 and FY12 were generated under different multipliers. FY11 used a salary multiplier of 1.41 X faculty salary; FY12 used a multiplier of 1.36.
4. Revenue figures for summer were not finalized until October 10 by Business and Finance. As summer financial records require adjustments that occur after the close of summer term, future computations of summer revenue will be finalized in mid-October.
5. A meeting was held on October 26, 2011, with the deans, VPAA, VPBF, AVP for BF, and Chief of Staff. Our goal was to define the variables in mutually agreeable terms so that commitments made to the faculty for revenue sharing could be met.
6. Concerns were raised around the table about the figures. Semester credit hour production for FY12 exceeded FY11 and tuition was higher, but revenue was lower. The revenue figure is a net figure based on the actual tuition generated from summer semester, including adjustments for tuition waivers, TAP, and non-payment. While the same parameters were present in the FY11 net revenue figure, our student default rate is much higher. For that reason, although productivity was increased on the academic side and tuition rates were higher, the actual revenue received was lower.
7. This raises two problems for the university. First, the faculty and department heads built classes and accepted teaching assignments based on a formula of the 1.36 multiplier, with the expectation that revenue was being generated in accordance with the guidelines set by the university. Second, the revenue realized is lower, at a time when expenses are higher and enrollments are lower.
8. The commitment to the faculty will be honored. The deans and administrators agreed that the fairest method would be to use a common formula for FY11 and FY12 summer calculations to compare each college's student credit hour production, faculty salaries, and indirect rates. The distribution to the colleges will be proportioned to each college based on performance (net income after expenses).
9. The attached spreadsheet demonstrates the methods by which summer compensation was calculated. Revenue figures were generated directly from Banner by tuition source (i.e., undergraduate in-state, graduate in-state, etc.). Credit hour production was generated from Banner, by college and course. For purposes of sharing revenue with colleges, college-level figures were used. The increase in credit hour production from FY

- 11 to FY 12, including an average tuition increase of 10% (\$13/credit hour), produced the gross revenue increase from credit hour productivity in FY12. The increase in faculty salaries from FY11 to FY12 was deducted from the gross revenue figure to determine the amount of summer revenue to be shared for FY12, which is \$204,809.
10. Ten percent, or \$20,481, will be kept by the VPAA office and used for university-level initiatives that support teaching and learning. The money will be used as follows:
    - a. \$7500 to supplement Faculty Development grants
    - b. \$12,981 for online course development stipends, with first priority given to courses that meet the strategic priorities of the university, USG, and state by creating an articulated college completion strategy (certificate/associate/bachelor degree, for improved retention).
    - c. The distribution of revenue to the colleges recognizes both credit hour production and efficiency (controlling course enrollment and salary expenses within each college).
    - d. The distribution of revenue within the college will be as follows: (deans discussion)
  11. The revenue formula for FY13 will require a better definition of target revenue. The multiplier will need to set at a level which assures the university the necessary operating revenue, but also enables faculty and administrators to plan courses, enrollments, and faculty compensation. The indirect variable must be a part of the revenue formula, if not included in the multiplier. Enrollment and salary figures generated in Academic Affairs will need to correlate with revenue data collected by Business and Finance.
  12. Variables should be defined and known prior to summer semester.
  13. Better data management is needed for monitoring and tracking summer enrollments

## Final Summer Revenue Distribution (reformatted from Excel spreadsheet to meet page restrictions)

### Summer Income Statement as of Oct 10 2011

		Baseline Target			
	FY2010	FY2011	FY2012		Revenue Sharing Recommendation for This Year
Revenue	\$2,952,459	\$3,846,178	\$3,845,918	(1)	taught 25,452 credit hours with 10% tuition increase \$330,876 Less increase in faculty salaries <u>\$126,067</u>
Faculty salaries	\$1,882,914	\$1,921,517	\$2,047,584	(2)	Net increase in income <u>\$204,809</u>
Income after salaries	\$1,069,545	\$1,924,661	\$1,798,334		
Indirect Costs	\$677,849	\$691,746	\$737,130	(3)	
Net Income	\$391,696	\$1,232,915	\$1,061,204	(4)	<b>Recommendation to distribute \$204,809</b>

1 - tuition revenue as of Oct. 10

2- This is salary and benefits

3- This is a rate of 36% times the faculty salaries (using FY 2011 standard for determination of net change in income)

**\$3,846,178** This amount is our target amount. In order for revenue sharing to occur, the revenue must equal this amount then the sharing is distributed from the net income

4- Decrease in net income from last year of \$171,711

Revenue	Tuition only for classes		
Faculty salaries	Salary and benefits		\$151.10 (total revenue/total SCH)
Indirect Costs	Currently we are using 40% of revenue	Amount earned per credit hour	

Report run date will be the 2nd week of October each year

	SCH	Percentage of Total	Average Number of SCH per Course Sections	Amount of Revenue	(SCH per School X \$151.10)
Education	2968	11.66%	47	\$448,479

## Appendix D – Campus Tobacco Policy Task Force

### **Armstrong Tobacco Control Task Force Recommendations for Campus Policy Revision November 17, 2011**

#### BACKGROUND

As of July 1, 2011, more than 500 college campuses across the country have enacted 100% smoke-free or tobacco-free policies, with the trend steadily increasing for the past few years. During the summer of 2011, the Armstrong Faculty Senate charged a small workgroup to explore the possibility of revising Armstrong's tobacco policy to strengthen tobacco control on the local campus. The Armstrong Tobacco Control Task Force (TCTF) convened for the first time in August, 2011, with support from the Student Government Association, Staff Advisory Council, and Armstrong administration. Membership included representation from students, faculty, staff, and local community partners (roster included at end of report).

#### CURRENT CAMPUS POLICY

The Georgia Smokefree Act of 2005 prohibits smoking in all enclosed facilities owned, leased or operated by an agency of the State of Georgia, including all enclosed facilities owned, leased or operated by the institutions of the University System of Georgia. This includes private offices. There are no exceptions allowed on any AASU facilities.

In addition to the overall campus policy, several areas on campus have a more restrictive tobacco policy:

- Armstrong Center – designated as a smoke-free facility, with no smoking permitted within 12 feet of the building entrance/exits.
- Campus Housing – smoking not permitted within the residential community buildings or within 100 feet of the building entrances/exits.
- Campus Security – has a policy in place stipulating fees for smoking policy violations.

#### ELECTRONIC SURVEY

President Linda Bleicken requested that the TCTF solicit input from all campus constituents to allow the opportunity for all voices to be heard during an initial phase of data collection. An electronic survey was fielded from September 19 -30 for this purpose. Students, faculty, and staff were asked to provide their opinion about Armstrong's current campus tobacco policy.

The survey was completed by 1,118 students, 70 faculty, and 75 staff, with 72% self-identified as not using tobacco products at all, 12% being occasional users of tobacco, and 16% using tobacco on a regular basis. Among survey respondents, there were 251 reported health conditions exacerbated by exposure to tobacco products, including 176 cases of asthma, 18 cases of chronic bronchitis, 7 cases of

oral cancer, 4 cases of chronic obstructive pulmonary disease, 3 cases of emphysema, and 30 other respiratory diseases. 75% reported being exposed to second-hand smoke on campus.

Three out of every four respondents supported campus tobacco policy revision, with 449 (36%) in favor of promoting a smoke-free campus with designated smoking areas, 362 (29%) in favor of promoting a 100% tobacco-free campus, and 118 (10%) in favor of a smoke-free campus without designated smoking areas. The remaining 25% supported maintaining the existing policy with no change.

### CAMPUS ACTIVITIES/EVENTS

Simultaneous activities were planned for September, October, and November to raise awareness about tobacco use, related health consequences, and the campus tobacco control initiative. Events included participation in the following:

- Armstrong Health and Wellness Fair booth – October 5, 2011
- Armstrong Day – October 19, 2011
- Treasure Savannah – October 22, 2011
- Campus Cigarette Butt Pick-Up – November 11-14, 2011
- Great American Smokeout – November 17, 2011

### LETTERS OF SUPPORT

In addition to community service events and activities, letters of support were solicited from internal groups such as campus departments and organizations, as well as from external groups within the community. Internal supporters of the initiative included the following:

- Faculty Senate
- Student Government Association
- Staff Advisory Council
- Organizations President's Council
- Graduate Student Coordinating Council
- National Student Speech Language Hearing Association
- AASU IHI Student Chapter
- Health Sciences Department
- Health Sciences Student Association
- Student Affairs
- Athletics Department
- Physical Therapy Club
- Physical Therapy Department
- Medical Laboratory Sciences Club
- AASU Wesley Fellowship

External supporters of the initiative included the following:

- Office the Mayor, City of Savannah
- District Health Director, Coastal Health District
- Administrator, Chatham County Health Department
- St. Joseph's Hospital
- D1 Sports Training and Therapy of Savannah
- Nancy N. and J.C. Lewis Cancer & Research Pavilion, Radiation Oncology Department
- American Lung Association in Georgia
- Independent Mary Kay Beauty Consultant

## TASK FORCE RECOMMENDATIONS FOR CONSIDERATION

As a result of the activities described above, the Armstrong TCTF presents the following options for President Bleicken to consider with regard to tobacco policy revision:

### Option #1

Revise the existing tobacco policy to designate the Armstrong campus as a smoke-free environment with designated smoking areas.

- Supports input from the majority of campus constituents (449 out of 1,241, or 36%) who participated in the electronic survey.
- Supports the City of Savannah Smoke-Free Air Ordinance of 2010 (an ordinance to restrict smoking in places of public accommodation, including all enclosed public places within the City of Savannah, as well as smoking in outdoor areas within 10 feet or a reasonable distance outside entrances, operable windows, and ventilation systems of enclosed areas where smoking is prohibited).
- Actions could include, but not be limited to, policy revision, identification of designated smoking areas, relocation of ashtrays away from building entrances, posting signage to communicate policy; utilization of Armstrong Marketing support for ongoing communication to campus community.
- Would require budgetary consideration for creation of designated smoking areas.

### Option #2

Revise the existing tobacco policy to designate the Armstrong campus as a 100% tobacco-free environment.

- Supports input from 362 of 1,241 (29%) campus constituents who participated in the electronic survey.
- Supports the City of Savannah Smoke-Free Air Ordinance of 2010, with more restrictive stipulations so as not to permit *any* tobacco use on campus.
- Actions could include, but not be limited to, policy revision, removal of ashtrays, posting signage to communicate policy; utilization of Armstrong Marketing support for ongoing communication to campus community.

### Option #3

No change to the existing policy.

- Supports input from 312 of 1,241 (25%) campus constituents who participated in the electronic survey.
- Abide by the City of Savannah Smoke-Free Air Ordinance of 2010, thus supporting input from additional 118 of 1,241 (10%) campus constituents who participated in the electronic survey who were in favor of a smoke-free campus without specific designated smoking areas.
- Least costly of the three options (the initiative currently has no budget allowances).
- Actions could include, but not be limited to, relocation of ashtrays away from building entrances, posting signage to communicate the city ordinance; utilization of Armstrong Marketing support for ongoing communication to campus community.

A final consideration is the issue of enforcement. Depending upon which option is selected, the TCTF will collaborate with campus security/enforcement to devise a standard action plan. It is recommended that enforcement be educational versus punitive in nature.

ARMSTRONG TOBACCO CONTROL TASK FORCE MEMBERSHIP:

- Dr. Sara Plaspohl (Health Sciences faculty)
- Cristina Gibson (Coastal Health District)
- Ty Slater (Student Government Association)
- Mario Incorvaia (Staff Advisory Council)
- Jennifer Incorvaia (Staff Advisory Council)
- Megan Feasel (Recreation and Wellness)
- Jerry Cohen (American Lung Association)
- Trey Lawrence (Graduate Student Coordinating Council)
- Tammy Johnson (Health Science Undergraduate Student)
- Martina Beckmann (Public Health Graduate Student)
- Rachael Mitchell (Public Health Graduate Student, Housing)
- Jessica Strong (MECI Graduate Student, Housing)
- Shondreka Webster (Health Science Undergraduate Student)

## Appendix E – SGA Resolution on Grading Policy

### SGA RESOLUTION 2011-2012

#### A RESOLUTION OF THE STUDENT GOVERNMENT ASSOCIATION OF ARMSTRONG ATLANTIC STATE UNIVERSITY, SAVANNAH GA

WHEREAS: We the Student Government Association represent the interest of the student body; and

WHEREAS: The faculty and administration of Armstrong Atlantic State University have approved and will enforce a new Grading Policy starting Fall of 2012; and

WHEREAS: Students were not given an opportunity to have a voice in the establishment of this new policy; and

WHEREAS: The enforcement of the new Grading Policy may have a significant negative effect on student's grade point averages; and

WHEREAS: The enforcement of the new Grading Policy will also have a significant effect on student's choice of major at Armstrong; and

WHEREAS: The enforcement of the new Grading Policy will also have a significant negative effect on the number of enrolled student at Armstrong Atlantic State University; therefore let it be

RESOLVED: The Student Government Association of Armstrong Atlantic State University strongly recommends that the current grading policy remain in effect until such time as student input is included in the crafting of any new policy.
